a brand new edition of charging about from the science works series featuring lively storytelling and fun engaging illustrations to aid children in their learning press a button flick a switch turn a knob and zap something amazing happens you have music light heat hairdryers all because of electricity in this revised edition from jacqui bailey we follow the story of how electrical energy is generated in a power station how it travels through pylons power cables and wires until it reaches towns and homes we learn how electrical current is created and how it is made safe this book also contains an experiment more great facts to know useful websites and an index book band brown ideal for ks2

surveys major breakthroughs in the science of electricity and includes information on circuits electromagnets electricity in the human body and energy saving tips

follows the stories of dr william gilbert stephen gray and benjamin franklin as they explore the force now called electricity

for use in schools and libraries only describes how electrical energy is generated in power stations and how it travels through pylons power cables and wires into people's homes includes activity

the 1st ed includes an index to v 28 36 of st nicholas

arguably no other institution has transformed the heart of texas like the lower colorado river authority born in the great depression of the 1930s lcra built a chain of dams and brought predictability to the cycles of extreme droughts and floods that had long plagued austin and other communities it also brought hydroelectric power and with that modern day civilization to the hard scrabble regions of central and south texas with those achievements and the support of powerful political leaders like lyndon johnson lcra for years was touted as one of the state's major success stories but lcra has never been a stranger to controversy and while it continues to provide much of the energy and water that fuels the economic engine of austin and beyond most people know very little about lcra in this book readers will learn about the

forces of nature and politics that combined to create Icra the colorful personalities who operated supported or fought with the agency its spectacular successes periodic blunders and occasional failures and its evolution into one of the largest public power organizations in Texas to learn more about the meadows center for water and the environment sponsors of this book's series please click [here](#)
