how has globalization changed social inequality why do americans die younger than europeans despite larger incomes is there an alternative to neoliberalism who are the champions of social democracy why are some countries more violent than others in this groundbreaking book sylvia walby examines the many changing forms of social inequality and their intersectionalities at both country and global levels she shows how the contest between different modernities and conceptions of progress shape the present and future the book re thinks the nature of economy polity civil society and violence it places globalization and inequalities at the centre of an innovative new understanding of modernity and progress and demonstrates the power of these theoretical reformulations in practice drawing on global data and in depth analysis of the us and eu walby analyses the tensions between the different forces that are shaping global futures she examines the regulation and deregulation of employment and welfare domestic and public gender regimes secular and religious polities path dependent trajectories and global political waves and global inequalities and human rights

why national and international equality matter and what we can do to ensure a fairer world in the globalization of inequality distinguished economist and policymaker françois bourguignon examines the complex and paradoxical links between a vibrant world economy that has raised the living standard of over half a billion people in emerging nations such as china india and brazil and the exponentially increasing inequality within countries exploring globalization s role in the evolution of inequality bourguignon takes an original and truly international approach to the decrease in inequality between nations the

increase in inequality within nations and the policies that might moderate inequality's negative effects demonstrating that in a globalized world it becomes harder to separate out the factors leading to domestic or international inequality bourguignon examines each trend through a variety of sources and looks at how these inequalities sometimes balance each other out or reinforce one another factoring in the most recent economic crisis bourguignon investigates why inequality in some countries has dropped back to levels that have not existed for several decades and he asks if these should be considered in the context of globalization or if they are in fact specific to individual nations ultimately bourguignon argues that it will be up to countries in the developed and developing world to implement better policies even though globalization limits the scope for some potential redistributive instruments an informed and original contribution to the current debates about inequality this book will be essential reading for anyone who is interested in the future of the world economy

globalization and inequalities places globalisation difference and gender at the heart of social theory and demonstrates the powerful capacity of complexity theory to enable innovative social analysis

inequality is becoming an urgent issue of world politics at the end of the twentieth century globalization is not only exacerbating the gap between rich and poor in the world but is also further dividing those states and peoples that have political power and influence from those without while the powerful shape more global rules and norms about investment military security environmental and social policy and the like the less powerful are becoming rule takers often of rules or norms they cannot or will not enforce the consequences for world politics are profound the evidence presented in inequality globalization and world politics suggests that globalization is creating sharper more urgent

problems for states and international institutions to deal with yet at the same time investigations into eight core areas of world politics suggest that growing inequality is reducing the capacity of governments and existing international organizations to manage these problems effectively the eight areas surveyed include international order international law welfare and social policy global justice regionalism and multilateralism environmental protection gender equality military power and security

this volume studies the relation between globalization and inequalities in emerging societies by linking area and global studies aiming at a new theory of inequality beyond the nation state and beyond eurocentrism

getting globalization right explores political and economic changes in seven new democracies that have in common both a movement toward greater integration with the world economy and the challenges posed by persistent or even increasing domestic economic inequalities the authors argue that without effective national policies to dampen the effects of globalization the short term impact of opening the economy has a negative effect on levels of poverty and inequality in a more positive vein however and without minimizing the difficulties involved they identify the types of social policies that can blunt or counter these negative effects they also suggest that international governance will have a growing influence on how globalization affects individual nations the up to date empirically rich case studies in the book cover the experiences of brazil mexico the philippines south africa south korea spain and turkey

with special reference to developing countries
